## OUR VALUES

**Our Atelier is inspired by the Reggio Emilia pedagogical approach which focus on the child's interests and own pace to learn.**

**We apply this to our Arty Parties too by guiding them in each activity, encouraging them with open questions and letting them express themselves.**

**It is not a painting class, it is a free flow workshop focused on the process rather than the result.**

# THE VENUE

The size for the table cloth is a basic one that you can find in any local store. Bring 2 of them if you'll use both tables.

We have enough chairs for kids and adults in the venue, as well as smaller tables and chairs for the little ones.

# TABLES FOR A SMALL GROUP

**In the kitchen you have drinking tap water, a kettle, a coffee machine (capsules), glasses and cups for adults, some extra small plastic plates for kids and some cutlery if needed.**

**There is 1 toilet.**

## **THE KITCHEN**

**There is enough room in the Atelier for up to 20 kids. Three different stations will be set up already at your arrival.**

## **THE ATELIER**

# 3 TAILORED HANDS-ON PROJECTS

1-6 y.o.

**COOPERATIVE ART**

Free painting over a big mural displayed on wall and floor. It's a cooperative moment where everyone paints together, and we get messy like never before!

On this project kids will create their unique art pieces on a canvas with original and creative tools. It is not the result what we aim for, but a moment for themselves to create something of their very own to bring home as a memory of the party.

**PAINING ON CANVAS**

**MODELING I**

We make playdough from scratch (sometimes it can be clay or slime on demand). We focus on the process of making, learning measures and playing with the dough in our hands.

# 3 TAILORED HANDS-ON PROJECTS

1-6 y.o.

Once the playdough is made, we love to the tables where there are different tools to manipulate it and materials (loose parts) to decorate and create a figure of their choice.

MODELING II

1-4 y.o.

When we have a party for a small group age, we add a Sensory play station. Often you will find all kinds of materials (soil, lentils, flour, water, beans, coffee, rice,...) and tools to play with. It is a open end station to discover with all the senses.
